**To be considered:**

There are numerous scholarship options that are available for the students, which are applied either online or offline. The applications of the students undergo screening based on the criteria of specific agencies awarding scholarships, like AICTE, National Scholarship Portal (NSP), SJVN, DTE, PMSS, etc. All the meritorious students found eligible for the scholarship receive the scholarship amount directly into their bank account through Direct Benefit Transfer (DBT).

In all cases, except for those applied through NSP, the institute does not get any list or information regarding which student has received the scholarship and which student was not found eligible or could not make it into the merit list of the scholarship. In such cases, the institute keeps track of the scholarships received by directly contacting the students regarding the scholarship and amount received. By the end of each academic year, the Nodal officer of the Scholarships prepares the list of students and the amount they received as a scholarship in the previous year, which is then verified by the head of the institute.

The institute gets the complete details of all the scholarships that are applied for through NSP and received by the students. The list of such scholarships is prepared and authenticated in a similar manner.

The details of the scholarships received by the students in the last five are attached below. This includes the details of the scholarships applied online through NSP and received (Screenshots/ Prints attached) and the details of the scholarships other than NSP applied offline and received (authenticated by the Head of the Institute).
