6.1.2 - The effective leadership is visible in various institutional practices such as decentralization and participative management.

Mentorship and participation in workshops or conferences can greatly contribute to understanding and practicing effective leadership, especially in the context of institutional practices like decentralization and participative management. The college operates a mentor-mentee program with a student-teacher ratio of 1:10, aiming to provide effective mentorship to address both personal and professional challenges, including study-related issues. In this program, each student is paired with a mentor, fostering a supportive environment where individualized attention and guidance can be provided. The mentor-mentee relationships are designed to offer comprehensive support, allowing mentees to seek assistance with a wide range of concerns, from academic struggles to personal development goals. Mentors serve as trusted advisors, offering advice, encouragement, and practical solutions to help mentees navigate challenges and achieve their objectives.

Moreover, students actively participate in conferences, where they have the opportunity to showcase their academic achievements and engage with peers and professionals in their field. Notably, the college's students consistently excel in these conferences, as evidenced by their recent attainment of the first position in the scientific poster presentation category. This achievement reflects the dedication and academic excellence of the students, as well as the effectiveness of the mentor-mentee program in nurturing their talents and fostering a culture of scholarly inquiry. By participating in conferences and receiving recognition for their work, students are not only able to showcase their research and academic prowess but also gain valuable experience in presenting their findings and engaging with the wider academic community.

Overall, the mentor-mentee program and active participation in conferences contribute to the holistic development of students, equipping them with the skills, knowledge, and confidence needed to succeed both academically and professionally.

Office Order

Date: 25-3-23

It is for the information to all the stakeholders that the college will be initiating a **Mentor-Mentee Program** to foster a positive and supportive learning environment. This program is designed to pair each student with a faculty member who will serve as their mentor, providing academic guidance, personal support, and career advice. Mentor-Mentee Program will be an invaluable resource for students, particularly those who may be new to college life or who are facing academic or personal challenges. This program will not only benefit the students academically but also help them to develop strong personal and professional skills.

To ensure this, each student is paired with a mentor. The following teaching/non-teaching faculties have been assigned as mentors to the following students:

Sr. No.	Name of Mentor	Designation	Sr. No.	Name	Sem.
1	Dr. Vivek Sharma	Director/ Principal	1	Aman Kumar	8 th

Subject: Regarding issue and action taken related to Mentee.

Respected Sir,

With due respect, I Shivani, (Assistant Professor) want to notify you that Sakshi of 2nd year is under my mentorship as per Mentor Mentee program. From last few days she was not performing well in studies and feeling very low under stress and anxiety. I asked her personally that whether she is facing any personal issues but she denied. After that I telephonically informed her parents about her poor performance in studies and her health issues were also discussed. As a mentor I motivated and asked her to join the Yoga & Meditation sessions on routine basis under Life skills program so that she becomes stress free and able to concentrate on her studies well. Also as per the communication with her parents she was asked to continue the medical treatment.

Thanking you.

Sincerely,

Shivani
Assistant professor (Pharmacognosy)
