#### 4.1.3.1 - Number of classrooms and seminar halls with ICT facilities.

The institute has a well-equipped computer and language lab with more than thirty computers, out of which twenty-five computers are with the latest technology of I-3/I-5 processor, 8 GB RAM. The institute also has various purchased and trial version software which helps students in their research activities.

Also, the language lab and communication software are used to improve communication skills of the students and to prepare them for various presentations and mock interviews. The Physiology and Pharmacology experimental (purchased) software are also available in the institute as per Pharmacy Council of India (PCI) curriculum. Through these software's, students learn the experimental section of Pharmacology and Physiology and become aware of the animal handling procedure. The institute has paid software of Microsoft office of 2007, 2010, 2019 (Student versions) and MS office 365.

Apart from this, the institution also has trial version software's like Design of Experiment (DOE) by which students learn and know the optimization process of formulations. The institute also has Graph Pad Prism Version 5, the SPSS trial version which helps students in their research activities. The institute also has free version Molecular docking software's like Auto Dock Vina, Auto Dock tools, Chem Draw, and Marvin Sketch, Pymol by which students learn about molecular based principles like ligand and protein interaction, drug designing and optimization of targets.

The institute has LAN and wi-fi connectivity in all blocks i.e. academic, admin, and girls hostel etc. The institute also has one smart classroom with smart panel podium along with projector, and one computer with latest configuration. The institute has 24x7 internet facilities with 100MBPS internet speed from lease line BSNL and is provided freely to students, and the staff members. The conference room in the administrative block has smart LED with interactive version that has proved a valuable tool for students' presentation, workshops and organizing webinars and seminars etc.

### COMPUTER AND LANGUAGE LAB

The college has a well-maintained computer lab which houses more than 30 computer systems and all are equipped with internet facilities. The computer lab also has printers, scanners etc., and all others student- related facilities available. The computer lab also has a Wi-Fi facility with 100 MBPS internet lease line connection available. The lab also has individual compartments for students where they design their projects, work on their assignments, and other exam related/other academic activities are carried out.

### **SMART CLASSROOMS-I**

The college is equipped with ICT-enabled classrooms and seminar halls to enhance the teaching-learning experience. Room 505, designated as the Smart Classroom is furnished with a Smart Interactive Panel (Pro Mark) 75-inch display, running on Windows 10 (64 Bit), with 4 GB RAM and 32 GB ROM. It also features LAN and Wi-Fi connectivity to support seamless digital learning. Additionally, Class Room-I (Room No. 502) is equipped with a Globus Podium and projector, a 75-inch VDU, operating on Windows 7 (64 Bit), with 4 GB RAM and 128 GB ROM. This room also includes a LAN facility, enabling interactive and resourceful academic sessions.

## GENSET SYSTEM

The institute is equipped with a Genset system to ensure an uninterrupted electrical supply, enabling smooth operations during power outages. This reliable backup system is essential for various activities, including administrative tasks, office work, and supporting students' practical sessions and laboratory experiments. It plays a critical role in maintaining the continuity of academic and institutional activities without disruptions.

## UPS SYSTEMS

In addition to the Genset system, the institute is equipped with three high-capacity UPS systems (4 KVA and 5 KVA) strategically installed in the Computer Lab, Language Lab, CIF Lab, and the Administrative Block. These UPS systems ensure an uninterrupted power supply for critical operations, safeguarding sensitive electronic equipment and maintaining a seamless workflow during power fluctuations or outages.

## NETWORKING SYSTEM

The institute is equipped with comprehensive networking infrastructure, offering both LAN and Wi-Fi connectivity across all blocks, including the academic block, administrative block, and girls' hostel. With a 24x7 internet facility powered by a 100 Mbps leased line from BSNL, the institute ensures seamless access to high-speed internet. This service is provided free of cost to students and staff members, facilitating online learning, research, communication, and administrative operations. The robust network supports digital initiatives, enhances academic efficiency, and fosters a connected campus environment.

**ADVANCED OFFICE AND LABORATORY EQUIPMENT**

In addition to the above mentioned facilities, the institute is equipped with advanced office and laboratory equipment to support academic and administrative functions. This includes high-performance photocopiers, printers, and scanners, ensuring efficient documentation and data management. The institute also houses sophisticated scientific instruments, such as High-Performance Liquid Chromatography (HPLC), Fourier-Transform Infrared Spectroscopy (FTIR), and UV-Double Beam Spectrophotometers. These state-of-the-art instruments are integrated with computers featuring the latest configurations, enabling precise data acquisition, analysis, and reporting. This advanced setup plays a pivotal role in research, experimentation, and academic excellence.
