4.2.1 - Library is automated using Integrated Library Management System (ILMS)

The Integrated Library Management System (ILMS) available at Govt. College of pharmacy Rohru is a comprehensive software solution utilized to automate library operations efficiently. It offers a range of features designed to streamline tasks such as cataloging, circulation, inventory management, and patron services. With ILMS, libraries can easily manage their collections, track borrowing and returns, and provide seamless access to resources for patrons. Additionally, ILMS often integrates with online databases and digital repositories, enabling users to search and access resources electronically. Overall, ILMS enhances the effectiveness of library services, improves user experience, and optimizes administrative workflows for librarians and staff.
